WHO WE ARE

ALISEI is a public-private association born on the initiative of the Ministry of University and Research, aimed at the establishment of National Technological Clusters.

ALISEI – directly an indirectly – brings together the main stakeholders in the field of Life Sciences.

- Industrial associations
- Regional clusters
- Research centres
- Companies
- Innovation hubs
- Districts
- Universities

ALISEI PROMOTES INNOVATION AND RESEARCH IN THE LIFE SCIENCES SECTOR, TO INCREASE ITALIAN COMPETITIVENESS

1,8 million EMPLOYEES

252 billion € VALUE OF PRODUCTION

10,6% GDP

5.537 COMPANIES

6,1 billion € INVESTMENTS IN R&D

WHY TAKING PART

Participating offers major financial operators the opportunity to understand and deepen their relationship with the Life Sciences sector in Italy, which is still relatively underrepresented in the portfolios of large asset management firms, despite:

- ✓ The sector represents 10% of the Italian GDP;
- ✓ Market is experiencing rapid and predictable growth, given the progressive aging of the population and the increasing focus on personal care;
- ✓ The sector profitability is stable and high;
- ✓ The EU4Health financing plan in underway;
- ✓ The Industrial strategy for Europe, which aim is to bring back the production of medicines and medical devices to Europe;
- ✓ The various possibilities for Investment in: listed companies, companies going public, established firms, startups and projects.
- ✓ The guarantee offered to investors by the presence of a virtuous mechanism operated by ALISEI, which has been connecting the most qualified research institutions with the pharmaceutical and biomedical industries for years.

WHAT WE OFFER

The financial world will be present at the meeting in all its components: Venture Capital, Private Equity, Large Investment funds, operators and professionals.

ALISEI's support consists of:

The opportunity of being an active participant in the "MEET IN ITALY FOR LIFE SCIENCES 2023", event where the Italian Life Sciences ecosystem interfaces with the Market

The opportunity to meet and connect with individuals involved in research and development of products/services in advanced Life Sciences

The access to a dedicated platform that allows you to explore innovative research projects, get to know all the participating stakeholders, and arrange one-to-one meetings with them.

The chance to learn about the financial and economic characteristics of ALISEI's members, the performance and value multipliers of Life Sciences sector, and the success stories of several start-ups and affiliated companies
